Kids will be kids! But...

Community Connections staff are experienced and trained in working with kids of all ages. To protect the safety and well-being of all children, we have expectations and standards for behavior. If a child is unable to meet those standards, even with all the support we are able to provide, we may have to call the parent or guardian and ask that the child be removed from camp. Please help by telling us anything about your child that will help us meet his or her needs.
